

OUR MISSION IS SIMPLE

To provide chiropractic care to all active military and their families, wounded veterans, and Gold Star dependents.

To make chiropractic physicians commissioned as officers in all armed forces.

To have chiropractic physicians embedded in all forward operating bases of combat and in all VA hospitals, clinics, and bases.

To educate veterans with service related disabilities, that they have chiropractic benefit coverage through the Veterans Administration.

To have a USO-type tour. To have innovative medical devices in the homes of Purple Heart Recipients to help combat pain, PTSD and Depression.

To provide funding to undergraduate and Chiropractic Universities for Veterans and their children wanting to become Chiropractors.

Rally your professional associates, tell your friends, coordinate meetings and social media blogs to help us get the word out to our military heroes that we are here to help!

The goal of The Patriot Project is to see chiropractic care available to all military and their families, wounded veterans and Gold Star Dependents.

WHAT IS THE PATRIOT PROJECT?

THE PATRIOT PROJECT is a grass roots movement to provide chiropractic care to ALL ACTIVE MILITARY, MILITARY FAMILIES, WOUNDED VETERANS and GOLD STAR DEPENDENTS. Chiropractic care is included in veteran's health benefits is not ready available for all veterans. Many of our veteran's ailments are currently being treated with pain medications and psychotropic drugs. Many of these ailments can be relieved more conservatively with CHIROPRACTIC CARE.

Sadly over 22 veterans are committing suicide dally and one-third of those suicides are directly related to the medications.

An active duty combat G.I. is more likely to die by suicide by overdose than be killed by Al-Qaeda. It is important to offer our active duty solders non-drug, nonsurgical treatment for their pain. Doctors of Chiropractic offer such care with attention to optimal function and health of the WHOLE PERSON.

The Patriot Project hopes to implement a USO-TYPE Chiropractic care tour, visiting military bases around the world, including all active forward operating bases. Once present on the front lines, chiropractic care will improve our soldiers' performance while on the battlefield. Once the mission is complete chiropractic treatments will help them to recover faster and more importantly, reduce the need for medications and surgery.

The Patriot Project is determined to have chiropractic physicians commissioned in the military and to have active chiropractic care available in every VA Hospital. These goals will ensure the choice of conservative chiropractic care and ready access for all active duty to non-drug, non-surgical options.

The Patriot Project now proudly has over 10,000 chiropractors participating in all 50 states. This achievement translates to over \$100,000,000.00 in free chiropractic care to our most deserving Americans.

The Patriot Project is honored to have the unprecedented support of some of our military's most distinguished heroes along with remarkable corporate leaders. We ask you to please help The Patriot Project support those who serve by committing your TIME, TALENT, and TREASURE. THEY SERVE ... WE SUPPORT.
